Profile

Engineer by education with experience across business operations, international project delivery, commercial roles and analytics. I enjoy understanding how things work, finding where processes can be improved, and turning those problems into practical solutions using data, automation and AI. My experience spans commercial operations, process improvement and cross-functional project delivery in international environments.

Experience

Sales Coordinator

INVISIO

Copenhagen, Denmark | January 2026 – Present

- Support global Sales operations while identifying and leading process improvement and automation initiatives across commercial workflows.
- Took ownership of the global price-list process and redesigned it through automation, reducing update effort by 98% while introducing stronger change, product and export-control visibility.
- Developed an AI-assisted tender qualification workflow, reducing initial review time by more than 90%.
- Built sales-enablement and product-information tools that reduced manual documentation work by more than 95% and expanded into adjacent commercial processes.
- Developed a dynamic Power BI product catalogue concept to improve how Sales accesses and navigates pricing and product information.
- Expanded improvement work across functions by developing automated analytical and management-reporting workflows with Engineering and Program Management stakeholders.
- Partner with senior Sales leadership on identifying opportunities for process improvement, automation and practical AI adoption.

Project Delivery Manager

Hemmersbach

Copenhagen, Denmark | October 2024 – December 2025

- Managed international IT service delivery projects across Germany, Austria and Switzerland, coordinating cross-functional teams and customer stakeholders.
- Developed Power BI and automated reporting solutions contributing to a 13% reduction in project costs and improved management visibility.
- Generated approximately EUR 20,000 in monthly recurring revenue through service expansion and commercial improvement initiatives.

Project Management Trainee

Hemmersbach

Athens, Greece | October 2023 – October 2024

- Supported international IT service projects while developing automation and Power BI solutions that improved KPI visibility and contributed to an 18% reduction in personnel costs.

Medical Sales Representative – Arthroscopy

Health & Iasis

Athens, Greece | October 2021 – September 2023

- Delivered technical sales support and clinical training to surgeons and healthcare professionals in operating-room environments.
- Developed a custom CRM and sales-tracking system contributing to more than EUR 300,000 in annual revenue growth.
- Built relationships with hospitals and clinical stakeholders, supporting exclusive supplier agreements and long-term partnerships.
